In order to become launching customer, the startup must provide a signed European Single Procurement Document (ESPD) - in Dutch we call this the Uniform Europees Aanbestedingsdocument (UEA). Unfortunately, you can only download the Dutch version of the European Single Procurement Document (ESPD). If you don't understand Dutch, please download the English manual here.

Make sure you download (not just open) the UEA form in acrobat reader. Don't forget to sign the PDF document! Download restrictions for the UEA form: The PDF can only be used with Acrobat Reader, preferably version 11.05. Only that way, the security and the extrusion functions that are included in the interactive pdf will work. You must save the document directly to your computer and not open it in your browser. After downloading, you can open the document via your computer with Acrobat Reader. If you open and fill in the PDF document directly via a web browser it may cause problems.

Thank you for filling in our Application Form and the UEA document. Please make sure that all information is complete.

You are almost there!
